Commissioner of Patents

Applicant's election of Group I (claims 1-9) and Species A (tumor cells), in the Election, filed 10/02/03 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

In addition to applicant's election of Group I (claims 1-9) and Species A (tumor cells), applicant is required to elect an additional species from the following of record.

This application contains claims directed to the following patentably distinct species of the claimed Group I (as well as Groups III / IV / V / VI, if claims are added): wherein methods comprise administering one or more cytokines selected from the group of:

- A) IL-12,
- B) GM-CSF or
- C) IL-12 and GM-CSF.

These species are distinct because their structures and modes of action are different.

Applicant is required under 35 U.S.C. § 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic, for example.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phillip Gambel whose telephone number is (703) 308-3997. The examiner can normally be reached Monday through Thursday from 7:30 am to 6:00 pm. A message may be left on the examiner's voice mail service.
